KEY ACHIEVEMENTS

- **$200-300K added revenue per quarter** from a rewards redesign: moved Sales incentives from tenure to Contribution Margin; productivity rose 10-15% and incentive costs fell by ~$100K.
- **30% of Director+ leaders moved up** after a 2-cohort leadership development programme for ~20 leaders across India, US and APAC.
- **Workforce demand-supply diagnosis for the CEO:** AI analysis of 12,600+ applications across 25 roles showed conversion, not demand, was the constraint.
- **Feedback culture rebuilt:** an AI coaching platform cut HR response time 65%; employees rating their performance conversations effective rose from 20% to 30% company-wide.
- **Talent assessment at scale:** AI pre-assessment cut screening from 2-3 hours to 20 minutes per role per day; onboarding 4x faster for ~200 joiners a month.
- **Sales engagement up from 3.0 to 4.6** (out of 5) over 3 years, above the company average.
